

## Women of the World Exhibition

### Who is the exhibition aimed at?

The exhibition is aimed at all women and girls who were not born in Cheshire. We want to find out the stories that showcase why these women now reside in our community.

### Aim of the exhibition

- To produce a multimedia exhibition which will include photographs, art work, poetry, and stories that explain their journey to Cheshire.
- To bring together women to talk about their stories in a safe space.
- To showcase the work in a variety of spaces for the local community to see and furthermore understand the journeys of others.
- To provide the local community an insight into stories of others to appreciate and celebrate the diverse community that we live in.

We have funding to provide:
